

West Jackson County Utility District

Presents

Groundbreaking Ceremony

New Operations Center

7200 McCann Road

Biloxi, MS 39532 (Jackson County)

Refreshments

Speakers will include Mike Montgomery and Troy Ross

Tuesday, July 10<sup>th</sup>, 2018 at 11:00 AM

The media and public are invited to join the West Jackson County Utility District as the District breaks ground on its new operations center at 7200 McCann Road in St. Martin. The new facility will provide for all District operations and include a 6,700 SF administration and customer service building and a 15,417 SF operations and maintenance warehouse. The center, once completed, will be the result of almost six years of planning and development. The design provides for safe and convenient customer access, improved security, expanded warehouse and equipment storage facilities, improved functional operations and an interactive Board Room for the public. The center will serve the community for the next fifty years or more. Construction is scheduled to be complete in July 2019. Once complete, all operations will commence at the new location and activities at our current location will cease.

West Jackson County Utility District
